

# Makarios Fared

Flutter Developer

makarios.fared@gmail.com — 01211544768 — LinkedIn — GitHub

## PROFESSIONAL SUMMARY

---

Innovative Flutter Developer with 1+ year of experience delivering high-quality, cross-platform mobile applications for E-commerce, CRM, and real-time communication. Proven track record of boosting user engagement by 30% and reducing app latency by 25% through performance optimization and clean architecture. Proficient in Flutter, Dart, Bloc/Cubit, Firebase, and REST APIs, with expertise in CI/CD pipelines and Agile development. Adept at translating business requirements into scalable, maintainable solutions used by 500+ active users.

## CORE COMPETENCIES

---

- Flutter, Dart, C++, C#
- Firebase Auth, Firestore, Storage
- Git, GitHub, CI/CD
- Bloc, Cubit, GetX, Provider
- REST API, Dio, HTTP, Postman
- Android Studio, VS Code, Figma

## KEY PROJECTS

---

### Fego (User Super App) [\[Link\]](#) 2025

- Developed a full-featured ride-hailing and delivery platform with real-time trip tracking using Google Maps and location synchronization.
- Implemented end-to-end in-app messaging, push notifications, and driver-passenger coordination via SignalR/WebSocket.
- Designed scalable state management architecture with Bloc and Cubit for high concurrency and low-latency updates.
- Integrated secure payment gateways and dynamic pricing algorithms to optimize user experience and operational efficiency.
- Monitored production with analytics and crash reporting tools, ensuring 99.9% uptime and seamless user experience.

### Fego Driver App [\[Link\]](#) 2025

- Built real-time driver dashboard for trip management, earnings tracking, and GPS broadcasting for accurate ETA and route optimization.
- Implemented instant job notifications and driver-passenger chat using SignalR/WebSocket for high responsiveness.
- Optimized map rendering and location updates to handle hundreds of concurrent drivers with minimal latency.
- Integrated offline caching and error recovery mechanisms to maintain app reliability in low-network areas.
- Enhanced driver experience with analytics, ratings system, and automated daily performance reports.

### Dikkan (E-Commerce Multi-Vendor App) [\[Link\]](#) Apr 2025

- Built 15+ UI screens with Google Maps API for live location services.
- Integrated OTP authentication and Cubit state management, reducing login errors by 30%.
- Implemented Firebase Auth and Firestore for vendor/product data for 500+ users.

### CRM Application (SHRKA) [\[Link\]](#) 2025

- Designed role-based UI linked to business logic via Cubit and REST APIs.
- Optimized performance by 25% and reduced API latency by 1.2s.

## OTHER PROJECTS

---

- Book Store App — GitHub — MVVM with Bloc, reduced API latency by 25%.
- Notes App — GitHub — Offline-first with Hive.
- Chat App — GitHub — Real-time messaging with Firebase Auth and Firestore.

## PROFESSIONAL EXPERIENCE

---

### Flieger Technology

Oct 2025 – Present

*Flutter Developer (Full-Time, Hybrid)*

*Remote / Ismailia, Egypt*

- Leading development of Fego (User) and Fego Driver apps with enhanced UI, architecture, and state management.
- Implemented improvements in Bloc/Cubit structure, GetX integration, and modular architecture for better scalability and maintainability.
- Optimized real-time features including Google Maps tracking, SignalR/WebSocket communication, and live chat functionality.
- Collaborating with UI/UX designers and backend team to deliver high-performance, production-ready applications.

### SHRKA

July 2025 – Oct 2025

*Flutter Developer*

*Ismailia, Egypt*

- Led CRM app development, reducing task processing time by 20%.
- Collaborated with designers and backend engineers to deliver on schedule.
- Implemented CI/CD pipelines, cutting deployment time by 40%.

### Freelance Projects

2023 – 2025

*Flutter Developer*

*Remote*

- Delivered 5+ mobile apps in E-commerce, healthcare, and communication.
- Integrated real-time chat, payments, and Google Maps APIs.

## CERTIFICATIONS

---

Diploma in Flutter Development — Kingston Business Academy (Jun 2024) [Link]

Flutter Advanced: Bloc and MVVM — Udemy (Mar 2024) [Link]

Responsive UI Design in Flutter — Udemy (May 2024) [Link]

## EDUCATION

---

### Suez Canal University

Sep 2020 – Jul 2025

*B.Sc. in Computer Software Engineering — GPA: 2.78/4.0 (Very Good)*

*Ismailia, Egypt*
